Mixed and compostable waste – All the above charges include up to 1 hour load time for one person including sweeping up and leaving site tidy. Anything over the included time will be charged at £7.20 per 15 minutes, per person. If 2 people are required, included times are halved and the same charge of £7.20 per 15 minutes for anything over this applies.

Heavy waste- As above. The same charge will apply for time spent over the above 1 hour separating any other types of waste (plastics, wood, paper etc.) from heavy loads. These will then be left on site or charged as mixed waste accordingly.
